

ACTS Documentation

Date: May 12, 2026

System Overview

This system is designed to streamline the handling of client concerns received through email by providing a centralized platform for tracking, validation, and resolution.

Technologies Utilized:

- ☐ HTML, Tailwind, CSS, JavaScript, PHP (System development)
- ☐ SQL Server Management Studio (Database)

Tables:

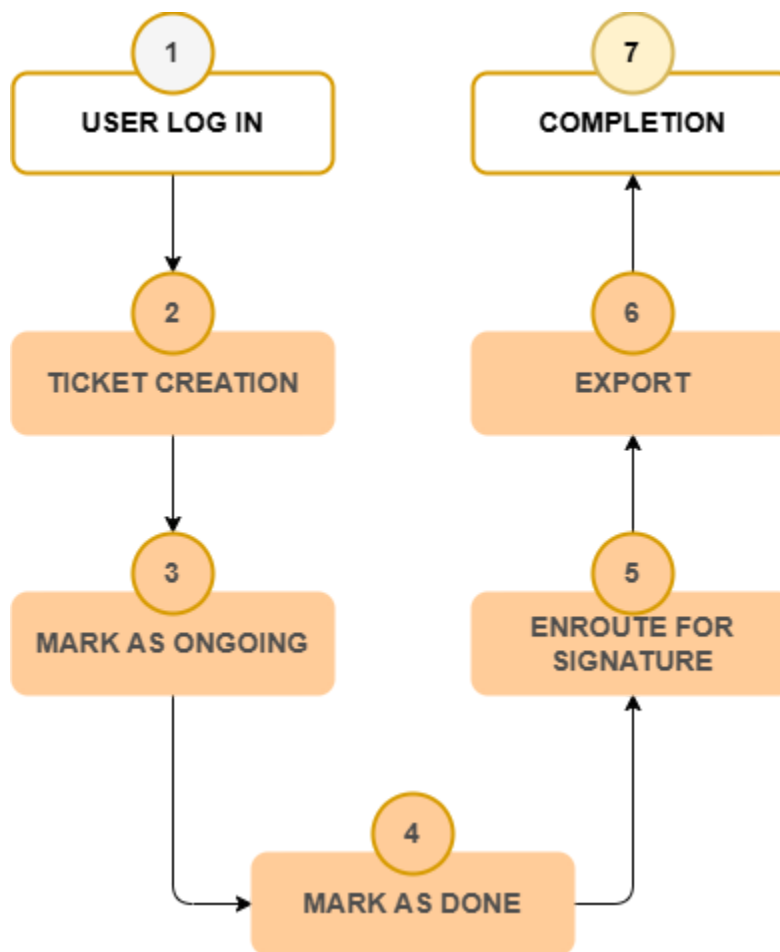

- ☐ Primary Tables (LRNPH_OJT)
 - LRNPH_OJT.dbo.acts_restrictions
 - LRNPH_OJT.dbo.acts_ticket
 - LRNPH_OJT.dbo.acts_ticket_logs
 - LRNPH_OJT.dbo.acts_ticket_section
 - LRNPH_OJT.dbo.acts_ticket_section_images
- ☐ Login (LRNPH_E & LRNPH)
 - LRNPH_E.dbo.lrn_master_list
 - LRNPH.dbo.lrnph_users

Relevant Links:

- ☐ <http://10.2.0.8/acts>

Process Flow

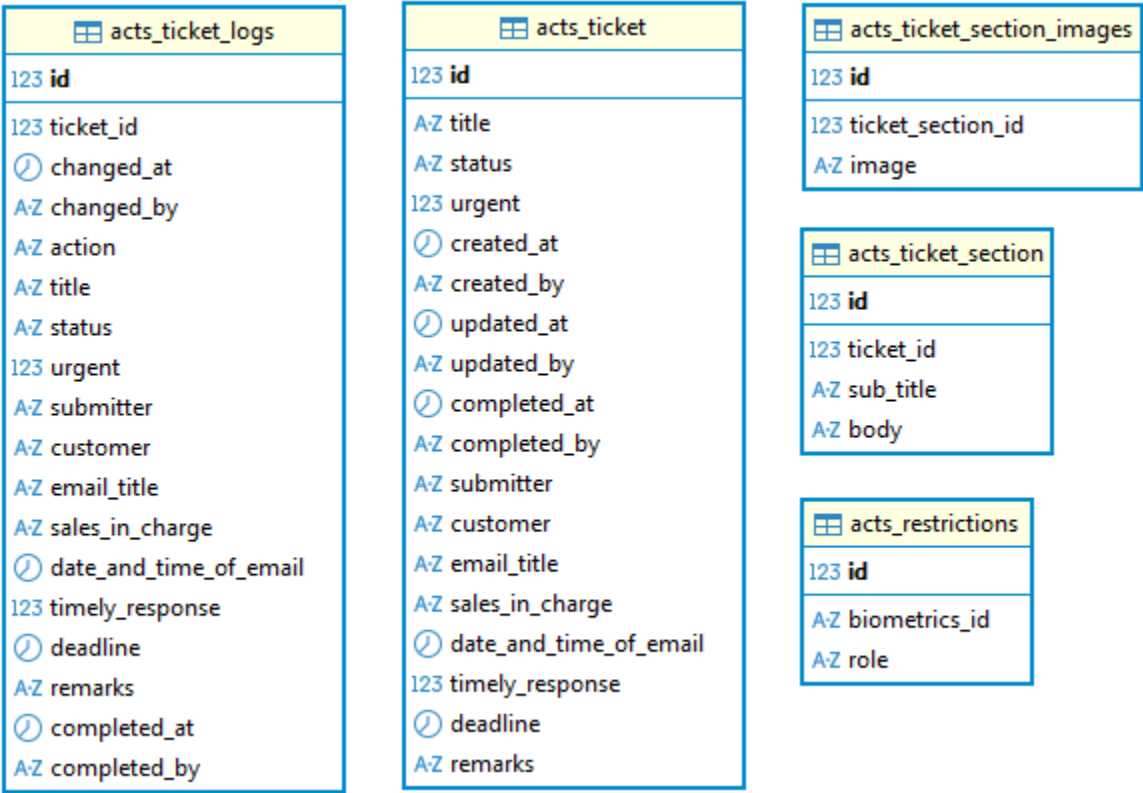

Provided is the flow of a Ticket from start to end, including Creation, Ongoing, Done, and Enroute for Signature with Remarks.

Database Definitions

This section contains the tables used in the system and their definitions, how data is stored, and how the table relationships. Sample queries are also provided which can be modified as per your requirements.

Entity Relationship Diagram

ACTS_RESTRICTIONS:

- ☐ Stores all authorized users
- ☐ User roles:
 - Super Admin
 - Admin
 - Editor
 - User / Viewer

ACTS_TICKET:

- ☐ Stores all tickets created. Each ticket has a target editor (Which editor created the ticket). Parent table of ACTS_TICKET_SECTION

ACTS_TICKET_SECTION:

- ☐ Child table of ACTS_TICKET and parent table of ACTS_TICKET_SECTION_IMAGES. This table stores all the sections made for each ticket. Targets the id of its parent table that acts as foreign key, but it is not set as foreign key.

ACTS_TICKET_SECTION_IMAGES:

- ☐ Child table of ACTS_TICKET_SECTION. This table stores all the images stored for each section and targets the id of its parent table that acts as foreign key, but it is not set as foreign key.

ACTS_TICKET_LOGS:

- ☐ Stores logs for edit and status update history for each ticket.

User Roles

The following are the roles of the system and the pages they are allowed to access:

1. Super Admin
