

ITMS Documentation

Date: March 12, 2026

System Overview

A system developed for Information Technology Department to manage Infrastructure and Server Administration inventory and accountability, and manage Preventive Maintenance Schedules.

Requirements:

- To track and manage devices from the inventory.
- To manage schedules for device maintenance.
- To manage employee accountability for each device.

Technologies Utilized:

- HTML, Tailwind, CSS, JavaScript, PHP (System development)
- SQL Server Management Studio (Database)

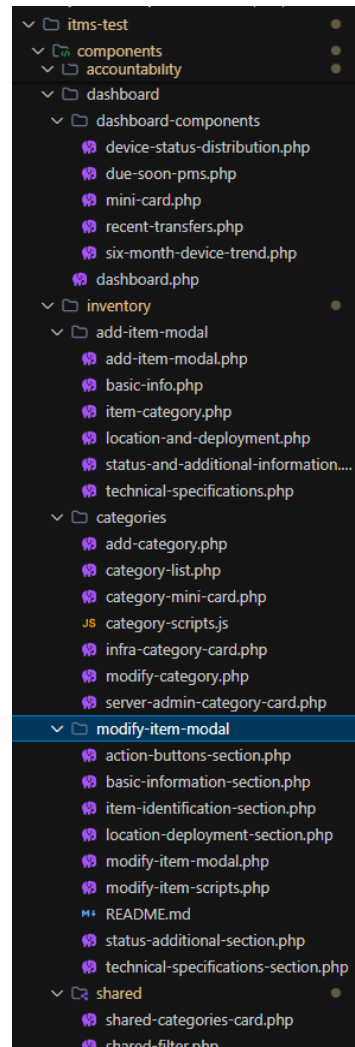

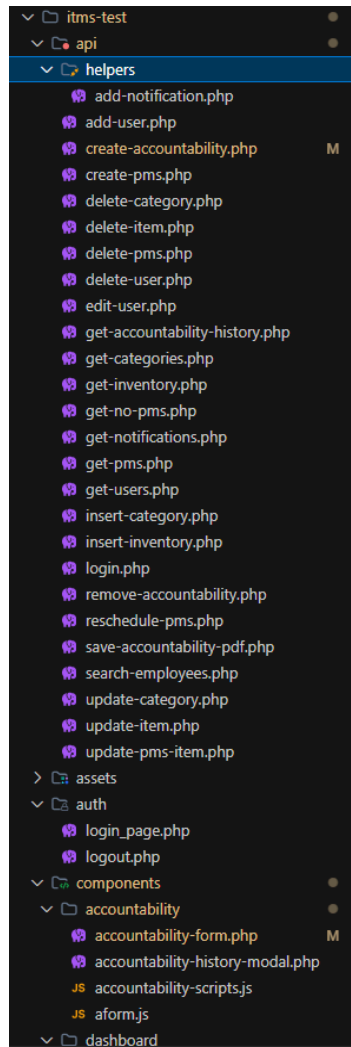

Relevant Links:

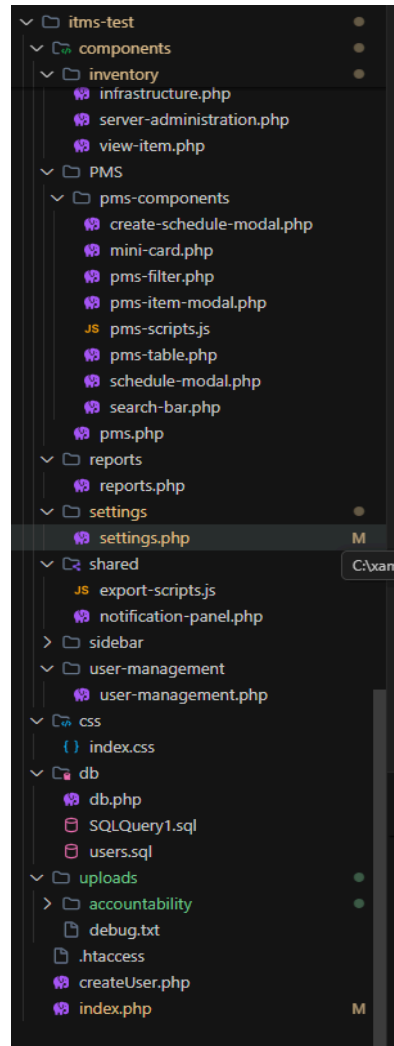

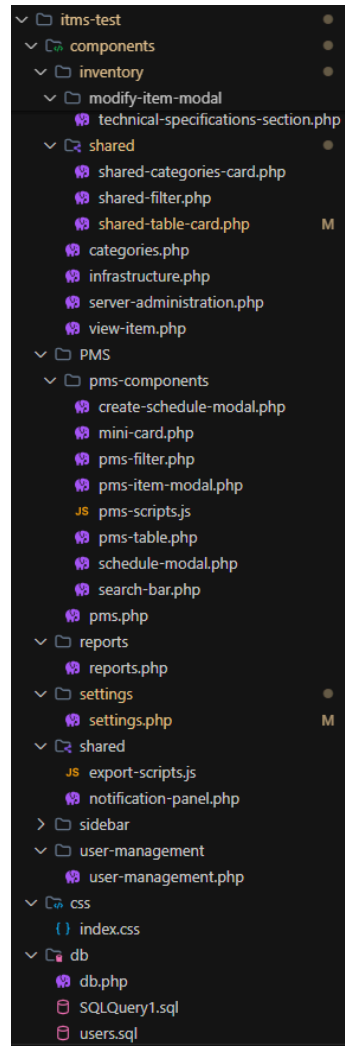

- <http://10.2.0.8/itms-test/index.php>

Tables:

- Primary Tables (LRNPH_OJT)
 - o LRNPH_OJT.dbo.itms_inventory
 - o LRNPH_OJT.dbo.itms_pms
 - o LRNPH_OJT.dbo.itms_accountability_form
 - o LRNPH_OJT.dbo.itms_notifications
 - o LRNPH_OJT.dbo.lrn_master_list
- Login (LRNPH_OJT)
 - o LRNPH_OJT.dbo.lrnph_users
 - o LRNPH_OJT.dbo.itms_restrictions

File Structure:

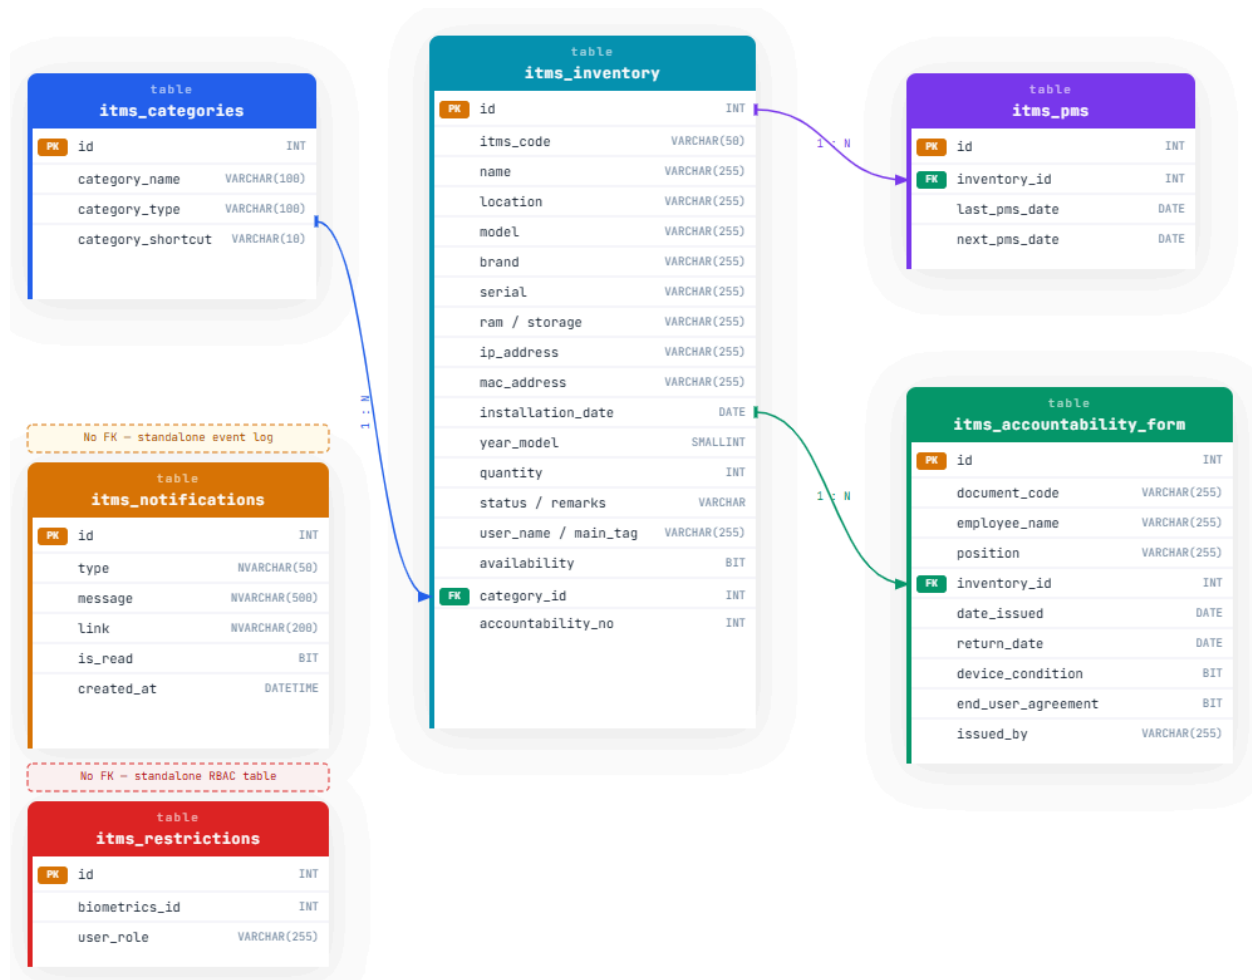

Database Definitions

This section contains the tables used in the system and their definitions, how data is stored, and how the table relationships. Sample queries are also provided which can be modified as per your requirements.

Entity Relationship Diagram

ITMS_RESTRICTIONS:

- Stores all authorized users
- User roles:
 - Admin
 - Editor
 - Viewer

ITMS_INVENTORY:

- Stores and manages inventory devices. Parent table of itms_pms, itms_categories, and itms_accountability_form.

ITMS_PMS:

- This is a child table of itms_inventory. Stores and manages device schedules and maintenance.

ITMS_ACCOUNTABILITY_FORM:

- This is a child table of itms_inventory. Stores the accountability information and form urls.

ITMS_CATEGORIES:

- This is a child table of itms_inventory. Stores and manages inventory and device categories.

ITMS_NOTIFICATIONS:

- Stores notification updates for each action that are created within the system.

User Roles

The following are the roles of the system and the pages they are allowed to access:

1. Admin
 - User Management (All departments)
 - Manage Inventory
 - Manage PMS
 - Create / Remove Accountability
2. Editor
 - Manage Inventory
 - Manage PMS
 - Create / Remove Accountability
3. Viewer
 - View Accountability, Inventory, PMS
